---

---

**Please be aware that a pet is for life and a part of the family. A pet can live to be 20 or more and you need to be responsible for the life of your new pet. Take these into consideration before adopting.**

- 1. If you move, your pet moves with you!**
- 2. If you acquire a new partner make sure that partner likes pets, is not allergic to pets!**
- 3. Allergies can be dealt with. Could be you are allergic to more than dander, get checked out by your Doctor. Keep one room pet free (like your bedroom). Make sure all pet products are machine wash friendly, vacuum regularly (the furniture too), bath your pet weekly or even take a wet cloth and just sponge bath your pet.**
- 4. Your pet is like a child, needs attention, love, training!**
- 5. Dogs are pack animals and like to be with the family, they do not like and should not be left on a chain outside all day alone.**
- 6. Dogs require proper exercise and everyday walks should be part of their routine, good for you & them.**
- 7. Treat them as part of the family and you will have a loving, loyal and faithful companion for their lifetime.**
